

Anais Kheir

FABRICATOR - CONCEPT ARTIST - SCULPTOR

ABOUT ME

Hi there! I am Anais Kheir, a stop motion enthusiast currently honing my skills as a second-year student. My passion lies in puppet fabrication. I find immense joy in crafting the tangible elements - from expressive puppets to detailed props and miniature sets - that become the building blocks of a stop motion story. My work also encompasses concept art and character design, where I translate the initial sparks of imagination into visual form, helping to define the overall aesthetic of the production.

SKILLS

Textiles – Machine and hand sewing - Needle felting - Clothes pattern making - Embroidery
Casting - Silicone - Jesmonite - Resin
3D Printing - Dragon Frame - Premier Pro
Armature Building – K&S Replacement jointed
- Wire armatures - Sculpting - Maquette's

INTERESTS

When I'm not fabricating things to life in stop motion, I enjoy nurturing life in other ways. I love tending to my flourishing houseplant collection and getting my hands dirty in the garden. Cooking is another passion, and I love creating flavorful Lebanese and Caribbean dishes that connect me to my roots. Then of course, there's always time to unwind with some of my favorite music playing in the background.

EXPERIENCE

2024

'Fisk' - Flo Stirrup

Prop fabrication

2023

'Nellie's Adventure' - 2nd Year Collaborative Project

My roles included: Puppet making- General fabrication- concept and character design- animating- story development.

2023

Work Experience with Studio Giggle – Bristol

During a 2-day work experience, I was given a live challenge: create a 2D animation for Studio Giggles Instagram celebrating Pride Month. The animation used a morphing effect to creatively showcase their logo.

2019- 2023

Hospitality and Event work- The Cedar Coffee Shop – Melissa web ltd –
Welcome Break - Starbucks – Pizza Expresses - Aluna
